BOTANICAL CANVAS- LAND ART

Analia is trained in advanced hydroponics, and creates a unique Botanical Canvas. A vertical ecosystem, entirely comprised of living plants, is created on the wall and uses a hydroponic watering system.

The artist and her team carefully plan the design, creation, and maintenance of the Land Art Park. The space is planted with native species, forming a fingerprint that will become a park.

# ECO ART PROCESS

OnLine Art Store

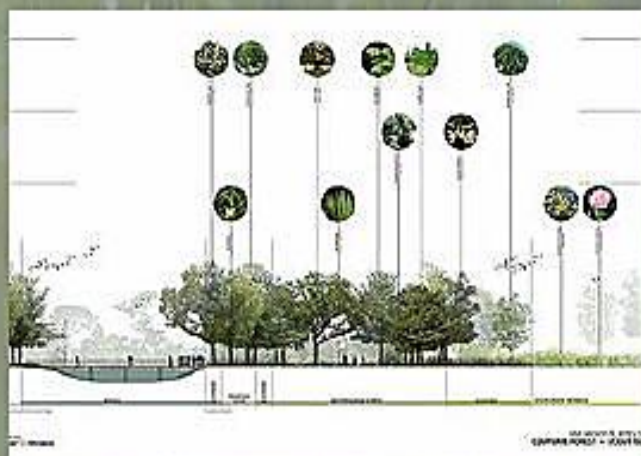

## BOTANICAL CANVAS

Each Eco Art Work is customized to your preferences. Analia and her team of experts (landscapers, architects and others) study the space and the light, and carefully select species and lighting to create the design and installation of the artwork inside and/or outside your home or office. The Botanical Canvas is built on a solid metal, PVC and non biodegradable felt frame that prevents damage to walls, and allows plants to grow without soil. The Eco Art has a built-in watering system, and requires limited maintenance: removing dead leaves or replacing plants that don't thrive.

**Participatory Eco Art:** Analia encourages every individual's active engagement in protecting the environment through art. ART FOR EVOLUTION, a non profit organization, provides opportunities for reducing each individual's carbon footprint, including participating in the ECO ARTwork, by contributing trees and/or plants to create a Land Art Park.

## LAND ART PARK

The parks have 5000 to 15,000 native trees, in a space of approximately 30 acres. The park can be in the shape of YOUR fingerprint.

Construction, Operation and Maintenance of the Park:

1. Design the space
2. Prepare the Space: remove weeds; stabilize the soil; fertilize the area.
3. Construction: digging; planting; organic composting;
4. Care of recently planted trees: Watering ; Mulch; Fertilizing; Pruning.

# INTERACTIVE ART

COLLECTION 2007-2009

ACRYLIC ON CANVAS

Analia's interpretation of tic tac toe, darts, and other classic games, engages viewers as participants, using symbols of power and gender as well as more everyday symbols, to playfully express social themes and ideals on canvas. Art becomes interactive -like a game -while expressing signs and symbols that resonate with each participant.

# AUTO DOMINIO

By Analia Bordenave

## INSTRUCTIONS:

The game of Dominoes is played with a set of 28 rectangular tiles. Each tile has a line dividing its face into two square ends. Each end is marked either with an "action", or is blank.

### The pieces

The traditional set of dominoes contains one distinct piece for each possible combination of the two ends. Auto Dominio, the pieces are painted with six different actions: love; move; enjoy; feel; create; make. The blank end directs the player to wait/consider.

### Action Symbols

Wait

Feel

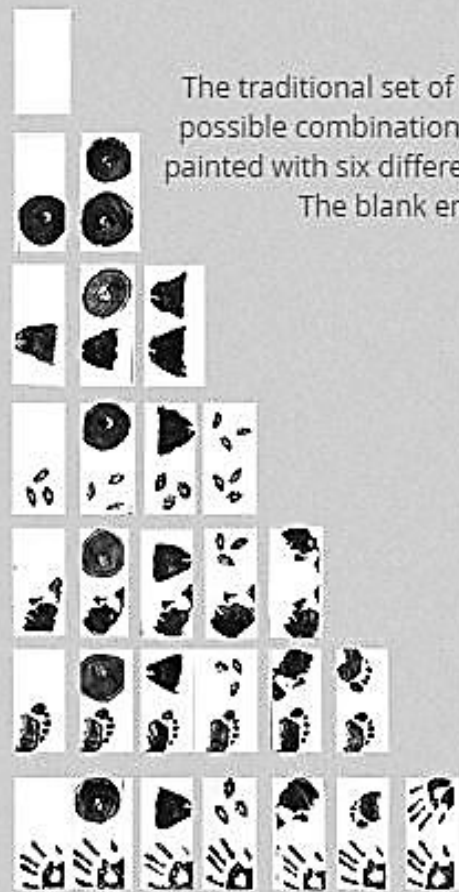

Enjoy

Love

Create

Move

Make

## Object of the Game

To leave the reaction and take full responsibility for our own choices and actions.

## Line of play

Starting with a single tile, the line of play typically grows in two opposite directions when players add matching action tiles.

Each matching action tile gives the player the opportunity to choose the combination of actions, and to take responsibility for one's own choices and actions.

## The winner

The one who is happier and able to enjoy building the game s/he wants to play.

# GAME OF POWER

By Analia Bordenave

## INSTRUCTIONS:

Two players take turns by strategically placing a figure in any one space. The winner is able to achieve a line of 3 symbols in a row—either horizontally, vertically, or diagonally.

Each player has the following pieces/symbols:

**HEAD,**  
representing  
**MENTAL  
STRATEGY.**

**ARMS,**  
representing  
**ACTION.**

**THE HEART,**  
representing  
**FEELINGS.**

**SEXUALITY,**  
representing  
**DESIRE.**

**WILD PIECE,**  
representing  
**EMPATHY**

## Level 1 Beginner: WOMEN VS MEN

Opponents use this power play when they think they can not get what they want by just asking. They often assume that what they want can not be obtained without competing for it. The expected situation is one in which one's loss is the other's gain. One's own power is only apparent through someone else. The challenge is external.

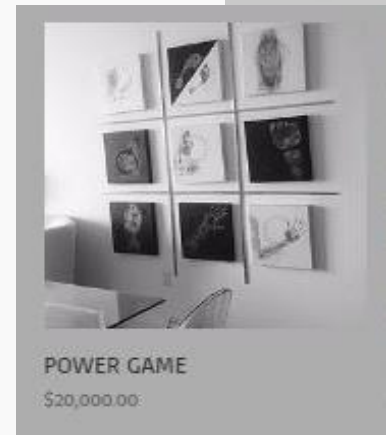

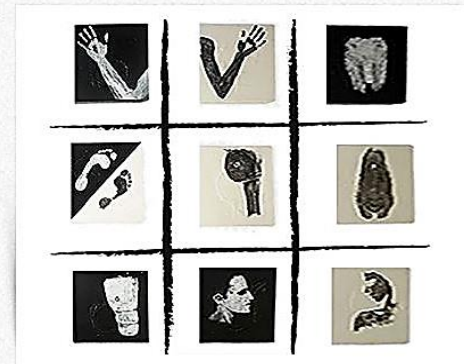

## Level 2 Advanced: FEMALE VS MALE

Here the competition is between our own male-female aspects within ourselves. One must look inside for power and strategies. The challenge is internal, not external.

## Level 3 Expert: EQUILIBRIUM

The power is in the equilibrium.

At what level are you playing?
